EDUCATION

Excellence can and will be achieved by a three-pronged approach of (1) competition, and (2) challenge and reward, while (3) providing proper resources. Competition through school choice ensures a child's opportunity is not simply a function of zip code.

TRANSPORTATION

We need to embrace “all-of-the-above” solutions – NOT just bike lanes and mass transit. Empty buses crowding busy streets are not the answer. Automobiles are now and will continue to be an important part of the transportation system

PUBLIC SAFETY

While historically safe neighborhoods like Bethesda, Kensington, Silver Spring, Rockville, and Potomac are seeing surges in car break-ins and other petty crimes, our county has adopted the soft-on-crime policies that have failed in many big cities.

SMALL BUSINESS

Restore small businesses that are vital to our prosperity. Council policies during the Covid pandemic contributed to the loss of large numbers of Montgomery County businesses. We need new leadership to protect mom-and-pop restaurants and specialty stores.

TAXES

Taxes are too high in Montgomery County and yet the County Council works to bypass Ficker Amendment protections against harmful tax increases.
